Dear Mike and Bob,

I was speaking with Mike yesterday evening at the Bypass Road meeting at the Hapuna Prince Hotel about the evaluation of Alternative A of the Kawaihae Rd-Mamalahoa Hwy connector road at my property in Sandalwood.

Mr. Yoichi Ebisu, an acoustical engineer determined that the noise level of Alternative A at my home would exceed federal and state standards for noise. Without entering my property to evaluate, he told me that his recommendation to Belt Collins would be to build a 8 or 9 foot wall on the west side of the property and along the south side along the Waikoloa stream.

Enclosed is a copy of the letter I sent to several parties about Mr. Ebisu's recommendation. I am sending this letter to you for your information.

Now for these additional reasons, I continue to be adamantly opposed to Alternative A for the connector road, but I am not opposed to a connector road concept.

Thank you for your continuing concern for our community.

Sincerely,  
Fran L. Tabor
